

About the Tohoku Kanto earthquake and its impact on Nichicon (The 3rd report)

We at Nichicon extend our heartfelt condolences to all those affected by this disaster and wish that the region will soon be able to begin the rebuilding and healing process.

Concerning our current situation we can provide the following information for our valued customers.

There are no personnel affected by this disaster and no big damage affecting our operations at any sites in our domestic group companies but because of restriction on the procurement of materials and transportation etc, we anticipate that our shipments will be delayed.

We have set up the headquarters of countermeasures against the earthquake to collect the information to cope with this situation.

In case any big change happens in the situation, we will keep you informed without delay.

We are sorry to trouble you but we highly appreciate your understanding in this matter.
